

LSSD-XC

2021 AGM REPORT

2020-21 Highlights

- Early start to the season in some areas (Lappe!) while low snow coverage affected grooming at other trail systems into the new year.
- In general, skiing was available from mid-November until mid-April, with many members grateful that the trails were allowed to remain open throughout the pandemic.
- Excellent participation from clubs across Northwestern Ontario in the XCSO COVID Challenges.

Priorities for this year

- Transition in leadership – recruitment of new executive members, identifying a new chair
- Re-engagement of clubs throughout the region
- Return to “normal” programming and activities post-pandemic
